## Pocket Guide to Washington's TFR's

The following is a condensed version of the Temporary Flight Restriction NOTAM's in the Washington State area. The information is provided here within as an aid. All pilots are required to check area FDC NOTAM's prior to each flight. The areas around major public gatherings (e.g. SAFECO Field, Seattle) have TFR's imposed during scheduled events. This information is current as of 1 July 2002.

FDC 1/0154 ZSE WA>

### **PORT TOWNSEND**

2 nautical mile radius of 48 04N/122 44W,  
at and below 3000 feet MSL.

FDC 1/1761 ZSE WA>

### **EVERETT**

3 nautical mile radius of 47 59N/122 13W,  
at and below 2000 feet MSL.

FDC 1/1812 ZSE WA>

### **BREMERTON**

3 nautical mile radius of 47 33.5N/122 38.5W,  
at and below 2900 feet MSL.

FDC 1/2976 ZSE WA>

### **BANGOR**

5 nautical mile radius of 47 44.5N/122 43.5W,  
at and below 5000 feet MSL.  
(excluding a 1.5 nm radius of 47 39.6N/122 43.94W at Apex  
airport)

FDC 1/0373 ZSE OR>

### **PENDELTON**

5 nautical mile radius of 45 50 52N/119 29 48W,  
at and below 10,000 feet MSL.

All pilots should monitor aviation frequency 121.5, if possible, during flight. In the event of a possible TFR violation, this is the frequency you may be contacted on by ATC. Pilots should also check the frequency after landing to insure that their ELT is secure. There are over 400 false ELT alarms each year in this State.
